

# We are looking for a Senior Full-Stack Developer (m/f/x) in Munich or Remote

## Chatchamp is bringing consultation to online shoppers

Do you want to work on the next-generation consultation platform involving **chatbots**, **recommender systems**, and **machine learning**? Chatchamp is revolutionizing online shopping with our automatized on-site consultation platform. We are a young and fast-moving startup with flat hierarchies and a focus on learning as we are working with brand new technologies.

### Your role

- Take responsibility for the whole stack:  
Design, develop, test, deploy, maintain and improve **scalable software**
- Work closely together with our CTO and take part in architectural **decision making**

### Our tech

- Microservice architecture running on Node.js (ES6)
- React, Vue.js, and Ruby on Rails
- PostgreSQL, Redis, AWS, Docker
- CI, CD, Code Reviews, Automated Testing, Clean Code

(No need to know all of it, but a chance to learn. 😊)

### Your profile

- 5+ years of development experience in at least one scripting language (JS)
- You work independently, are highly motivated, a fast learner, and a problem solver
- English (full professional proficiency)
- You get things done and have an appreciation for eye-catching UI/UX

### Perks

- Office at **Marienplatz** (city center) and regular home office 🏠
- Flexible working hours, real **work-life balance** ⚖️, and competitive salary
- Book flat rate 📖, gym membership 🏋️ and monthly learning events
- And of course team events, fruits, snacks and Bavarian beer 🍺 (after work)

4,6 ★★★★★  
kununu Score

We look forward to your short and concise application. Please send us your CV or LinkedIn profile, together with earliest starting date, to [jobs@chatchamp.com](mailto:jobs@chatchamp.com).

Let's revolutionize e-commerce!
