RESPONSIBILITIES

- Be part of a newly expanded team in Berlin and realize business opportunities from digital technologies for a division with 10 strong industrial B2B businesses.
- o In this role, you build web technology to realize attractive and effective journeys.
 - o By doing this, you deliver modern experiences for our customers that drive business across digital and traditional channels.
 - o You implement web frontends by integrating existing CMS with low code platforms, corporate JS code elements and own developments.
 - o Moreover, you integrate the frontends with backend systems in a modern and headless architecture.
 - o You collaborate with specialized teams in corporate IT to adapt and implement existing technology.

BENEFITS

- o 30 days of paid vacation and sabbatical options.
- o Onboarding to help you settle in quickly, ensuring you are part of the BASF team from day one.
- o Flexible working hours so that you can organize your working and private life according to your needs.
- o Location-independent work models with defined days of presence in Berlin and place of residence in Germany.
